## Confidentiality of Important Information

The information in this document is confidential and is intended solely for the attention and use of **Peernetv** owner and its employees. It might contain privileged information. If it has come to you in error and you are not the intended recipient you must not proceed further, disclose, copy, use or disseminate any information contained therein, please delete it and contact us (**sakshi@sdi.la**) without delay so that we may take whatever action we consider appropriate. Although this document is believed to be free from any virus it remains the responsibility of the recipient to ensure that this document is virus free and we accept no responsibility in this regard.

## Overview

- SDI will develop POC apps that will allow users to interact with their contacts/friends while they watch their favorite movies and tv shows.
- This document contains the project requirements.

## Development Principles

- Simple and clean UI designs
- Smart Navigation Tabs for easy and fast access to all the functions.
- Language of Development – English
- Language of Data Entry – English

## Main Modules

**MODULE 1: Fire TV App**

**MODULE 2: Android App**

## MODULE 1: Fire TV App features

1. Login, Sign up via email
2. User Profiles- Similar to the functionality in Netflix.
3. EPG guide screen - Similar to a traditional TV guide listing down the friends in your network with profile pictures. With the option to receive recommendations, friends list, likes & watch tv shows together.
4. Recommendations- This feature allows viewers to send recommendations to peers in their network.
5. LIKE- When you like multiple shows from one station that station will be saved to your favorites.
6. Favorites- This feature allows viewers quick and easy access to shows.
7. Scenario- You are watching TV and you want to suggest or share a commercial or show with a friend. You go to your favorites and select what you want to share and with whom.
8. Watch party - When more than one user is watching TV together, the signed in user can initiate group watch.
9. User Profile Details - You will be able to view your Favorite shows, list of peers you are following, list of peers that are following you
10. Quick Guide - List down all the friends activities in your network

## MODULE 2: Android Mobile App features

1. Login, Sign up via email, facebook, Google
2. User Profiles- Similar to the functionality in Netflix.
3. EPG guide screen - Similar to a traditional TV guide listing down the friends in your network with profile pictures. With the option to receive recommendations, friends list, likes & watch tv shows together.
4. Recommendations- This feature allows viewers to send recommendations to peers in their network.
5. LIKE- When you like multiple shows from one station that station will be saved to your favorites.
6. Favorites- This feature allows viewers quick and easy access to shows.
7. Scenario- You are watching TV and you want to suggest or share a commercial or show with a friend. You go to your favorites and select what you want to share and with whom.
8. Watch party - When more than one user is watching TV together, the signed in user can initiate group watch.
9. User Profile Details - You will be able to view your Favorite shows, list of peers you are following, list of peers that are following you
10. Quick Guide - List down all the friends activities in your network

## Investment cost & Delivery Timelines

The total cost to design & develop the POC app as per the above features list is **\$14400** and will be delivered in 3 months.

**Note** - The timeline is based on the above listed points & does not include recordings functionality. We are reviewing how we can record & share the shows with friends in your network and will get back to you about this separately.

## Payment terms

- 35% upon contract submission - \$5040
- 35% on UX completion - \$5040
- 30% on final delivery - \$4320

## Warranty

SDI provides a 6 months debugging warranty on every project. For the initial 6 months after acceptance/launch, if any bugs occur and are identified, we will fix them without any cost to you.

## Ongoing Maintenance

Beyond the 6 months, we provide a 12 month Annual maintenance contract at a fixed additional cost of 25% of the original project cost. This will include updates for the latest OS updates and bug resolutions.

## Source Codes

All of the project Source codes will be handed over to the client on project completion. Upon completion

and payment of all agreed invoices to SDI, the Client will be the sole and exclusive owner of all software assets and IP of the project.

Thank You,

Sakshi Sharma
