

v.1.0

Scope of Work: Genesis Egg Donation Website Development

Confidentiality of Important Information

The information in this Document is confidential and is intended solely for the attention and use of employees of **Mr. Page Tofighi**. It might contain privileged information. If it has come to you in error and you are not the intended recipient you must not proceed further, disclose, copy, use or disseminate any information contained therein, please delete it and contact us (**raj@sdi.la**) without delay so that we may take whatever action we consider appropriate. Although this document is believed to be free from any virus it remains the responsibility of the recipient to ensure that this document is virus free and we accept no responsibility in this regard.

Table of Notifications

This Table represents the contacts in both companies as assigned currently.

Project	Name	Company
Project Requirements	Page Tofighi	Genesis Egg Donor & Surrogacy Group, Inc.
Client Interface (Business)	Sakshi Sharma	Software Developers Inc.
Client Interface (Technology)	Raj Srivastav Sachin Nayak	Software Developers Inc.

Aim

- To build a user friendly website which will allow clients to easily access information based on their specific requirements in regards to finding donors, surrogates or being prospective parents.
- Admin access and control of information at the backend along with the ability to add/ modify/ delete keywords through an admin interface.
- This document contains all of the main modules/functions requirements.

Development Principles

The Development principles of this Turnkey solution will be:

- Custom web design and development
- Light elegant designs to give a formal look and feel to the clients.
- Smart Navigation Tabs for easy and fast access to all the functions.
- Language of Development – English
- Language of Data Entry - English

Coding Standards

- As per Industry standards .NET, MVC and MS SQL will be used to create the website.

FYI : The whole website should be in https.

FEATURES/ FUNCTIONS:

1. Website

1.1. Current Functions

1.1.1. Home page

1.1.2. About us & Contact us (Should be together on one page), Contact us should contain phone numbers and short biographies of employees .

1.1.3. Blog page

1.1.4. FAQ

1.1.5. Integrate social links at the bottom of each page (FB, Twitter, and other Social media icons)

2.2.26.2. Egg donor history, first time, on hold, able to add new questions/ takeaway questions from the application.

3. Performance & Security

3.1. Performance

SDI recommends to use Selenium browser automation tool i.e <http://www.seleniumhq.org/> for QA testing, regression testing, defect reporting & test the overall performance of the website.

3.2. Security

SDI recommends to use Websecurify i.e to discover & eliminate variety of security issues from XSS, SQL Injection etc etc. For a complete list of the security issues please refer <http://www.websecurify.com/overview/vulnerabilities.html>

Websecurify will be a nominal additional cost of approximately \$20 - \$50 per month payable directly by Genesis to Websecurify.

4. Data separation - We will create a structure of data wherein the general information will reside on the server. Identifiable information will reside on a Computer/server in your office. These will both be identified with a Tag and kept encrypted for security purposes.

NOTE : Design theme will be provided by the client.

Investment details - Time & Cost

Tasks	Resources	Duration	Cost
Requirement Analysis	1 Tech Leader	2 weeks	
Wireframes + Designs	1 Designer	1 month	
Development	2 Developer	3 months	
Testing	1 QA	1 month	
Beta Delivery	1 Developer + 1 QA	1 week	
Total for the above			\$22500
Genesis Black Program Website (New Skin, Centralized CMS)			\$2000
Egg Banking Program Website (New Skin, Centralized CMS)			\$2000
		Total	\$26500

Payment terms:

- Upfront Payment : \$8,000
- Mid-term payment : \$8,000
- Balance Payment on Beta Delivery : \$10,500
