Confidentiality of Important Information

The information in this document is confidential and is intended solely for the attention and use of **Proxima Solutions LLC** ("the Client") and its employees. It might contain privileged information. If it has come to you in error and you are not the intended recipient you must not proceed further, disclose, copy, use or disseminate any information contained therein, please delete it and contact us (raj@sdi.la) without delay so that we may take whatever action we consider appropriate.

Overview

SDI proposes to develop Extensions / Plugins for Ecommerce Platforms to help Ecommerce website owners i.e merchants minimize their shipping and fulfillment efforts, help them ship faster and cheaper through their websites.

SDI will develop Extensions / Plugins for WooCommerce, BigCommerce, Shopify Platforms in Phase 1.

Functional Requirements

- Receive orders from the websites for fulfillment
- Website customers will be able to select your company for fulfillment. Products are in the health and wellness category - small to medium size - 5x5x5 box
- Check inventory & show products to customers if stock is available. Customers will put a delivery address to see if your company can fulfill their delivery or not. The inventory levels will be what is posted and available on the admin panel
- Order Data will be saved & displayed in the Admin panel. Order and customer data will be passed through (including but not limited to: order ID, product ID, product name, quantity, price, total invoice, customer name, customer address, customer phone, customer email, selected delivery date/time)
- Delivery windows will be available which customers can select for same day or if cutoff time has passed, for next day delivery
- Change order status on ecommerce website to "shipped" or "completed" or equivalent

- Admin panel will have the ability to control zip codes, blackout dates, delivery times and applies universally to all installed plugins
- Ecommerce website admins will have to insert the API Keys when they enable the Extension / Plugin on their website.
- Restrict pings back to admin panel to only **those** pre-filtered set for my **the Client's** orders (e.g. if an ecommerce site has 10K monthly orders but only 200 are in **the Client's** service area, **the Client will not need** to pay the server/hosting costs related to 10K pings/calls, just the 200)

Cost Estimate

Tasks	Cost
Plugin for WooCommerce	\$2800
Plugin for BigCommerce	\$2800
Plugin for Shopify	\$2800
Web Admin includes service area	\$1500
Total	\$9900

Delivery timelines

3 weeks per plugin

Payment terms

- 20% upfront upon contract submission - \$1980
- 80% on completion prior to submission to app stores - \$7920

Plugin submission

SDI will submit the plugins to the [respective app store's of the shopping cart platforms \(Shopify, Bigcommerce, Woocommerce\)](#) for approvals if needed

Warranty

SDI provides a 6 months debugging warranty on every project. For the initial 6 months after acceptance/launch, if any bugs occur and are identified, we will fix them without any cost to you.

AMC - Optional

Beyond the 6 months, we provide a 12 month Annual maintenance contract at a fixed additional cost of 25% of the original project cost. This AMC will cover bug fixes and software/OS updates for 12 months at a fixed cost of **\$2475**

Hosting

The client can sign up for an account on AWS/GCP/Azure. Budget for \$1200 - \$1800 per year based on usage

Source Codes

All of the project Source codes will be handed over to the client on project completion. Upon completion and payment of all agreed invoices to SDI, the Client will be the sole and exclusive owner of all software assets and IP of the project.

Thank You,

Raj Srivastav
