Introduction

AnalyticsPlus has a web portal which provides information to patients/Users.

SDI will evaluate all current information, methods and functions on the web portal and apply research and experience to build a seamless UX - User Experience.

Deliverables

- SDI will review all main functions on the web portal and create a list of functions.
- This list will be distilled into a Workflow for Mobile users.
- SDI will then create up-to 15 Wireframes for Mobile Users which will show the workflow
- Once AnalyticsPlus approves/comments on the Wireframes, SDI will apply themes/colors/look and feel to the wireframes
- Once these screens are approved, SDI will deliver all screens to AnalyticsPlus with Source files.
- AnalyticsPlus may then ask for a Price/Quote to build out the complete App for iPhone/Android
