This Table represents the contacts in both companies as assigned currently.

Project	Name	Company
ASTARIS Upgrade	Quincy	
Client Interface (Business)	Rob Lapointe	Software Developers Inc.
Client Interface (Technology)	Sachin Nayak	Software Developers Inc.

Aim / Project Overview

SDI will perform the below mentioned enhancements on the preexisting ASTARIS web application

- Integration with Jasper Reports
 - Complete work so that Budget Reports done in Jasper can be called up in ASTARIS
- Conversion of existing reports to Jasper
 - Convert reports from Reportico to Jasper (approximately 15 reports)
- Administration Functionalities are:
 - User management
 - Department management
 - Program management
 - Ministry Management

- Transfer programs
- Transfer departments
- Roll-over functionality that allows users complete the creation of a new budget year
 - Copies relevant data from previous budget year.
- URL Variables
 - Convert URL variables to Session variables.
- Accounting Module
 - Invoice tracking
- Dashboard
 - Create a dashboard that summarizes information across the entire application

Coding Standards

- SDI will develop as per the current ASTARIS coding standards.
